

# MULTI-POINT INSPECTION Checklist

Before a vehicle makes it onto our lot, it begins its journey with our Multi-Point Inspection which includes everything listed below as well as any body damage or wear & tear.

## INTERIOR/EXTERIOR

- ✓ Windshield Washer Spray & Wiper Blades
- ✓ Windshield Condition (Cracks, Chips, Fitting)
- ✓ Upholstery/Carpet/Floor Mats/Mirrors/Glass
- ✓ Emergency Brake Adjustment
- ✓ Horn Operation
- ✓ Fuel Tank Cap Gasket
- ✓ In-Cabin Microfilter (If Equipped)
- ✓ Clutch Operation (If Equipped)
- ✓ Dome Light/Amp
- ✓ Light Dimmer
- ✓ Parking Brake Operation
- ✓ Head Lights/Tail Lights/Turn Signals/Break Lights/Hazard Warning Lights/Exterior Lamps

## UNDER THE HOOD

- ✓ Engine Air Filter
- ✓ Drive Belts (Condition/Adjustment)
- ✓ Cooling System Hoses/Heater Hoses/Air Conditioning Hoses/Connections
- ✓ Radiator Core & Cap
- ✓ Engine Coolant System
- ✓ Fluid Levels: Oil/Battery/Power Steering/Brake/Clutch/Washer/Automatic Transmission

## UNDER THE VEHICLE

- ✓ Shock Absorbers & Suspension
- ✓ Engine Oil and/or Fluid Leaks
- ✓ Steering Gear Box/Linkage & Boots/Ball Joints/Dust Covers
- ✓ Transmission/Differential/Transfer Case (Check Fluid Levels Condition/Leaks)
- ✓ Muffler/Exhaust Pips/Mountings
- ✓ Brake Lines/Hoses/Parking Brake
- ✓ Drive Shaft Boots/Constant Velocity Boots/U-Joints & Transmission Linkage
- ✓ Fuel Lines & Connections/Fuel Tank Band/Fuel Tank Vapor Vent System Hoses

### TIRES

Tread, wear pattern, and pressure is checked on all tires. A wheel balance or alignment is done if needed.

### BRAKES

A brake inspection is done on the front & rear brakes. If the vehicle is equipped with disk brakes we check those as well.

## BATTERY PERFORMANCE

Battery terminals, cables, and mountings are checked as well as the condition of the battery overall (storage capacity test). If the battery is in bad condition, it is replaced.
